

Perfect from Now on : How Indie Rock Saved My Life

John Sellers

Despite vowing never to get caught up in music due to his fathers overbearing Dylan-obsession (which haunts him to do this day) the young John Sellers found himself powerless to resist the lure of indie rock. When his favourite band went their separate ways in 2004, Sellers examined his own listening rituals and began to analysis how his love of music had a massive hold over his life and what that meant. His obsession, above and beyond mere music fandom, has taken him on some adventures to ground-breaking shows with his favourite bands getting drunk with his heroes and even a pilgrimage to Ian Curtis grave. Sellers examination of his own obsession of his favourite bands such as the Smiths, Joy Division, Duran Duran (and later Nirvana & Pavement) exemplifies, why music, and in particular certain bands, mean so much to those whose worship them. Sellers has written a fans perspective in a tremendously humourous and passionately detailed memoir - one that any fan of music, not just indie rock, will relate to.
