

Performance Based Training: Building a Competent Workforce

Brice Alvord

This book is intended as a guide to Performance Based Instructional Design. It covers how to conduct an effective Training Analysis including Job/Task Analysis, how to identify and define realistic competencies and instructional objectives and how to organize analysis data into a performance based training design. The book also explains how to develop important training documents including trainers guides and lesson plans, participant manuals, and support materials including training and job aids and other media. Performance Based Training: Building a Competent Workforce is intended for the training professional as well as those people who have been given a training assignment. It is also a good reference for managers and supervisors to help them build a stronger workforce and to support company training efforts.
