Performance Enhancement of MC-CDMA System : Through Site Diversity Techniques- A study

Kumaratharan Narayanaswamy

MC-CDMA system was found to be a strong candidate for future wireless communication system, with a blend of technique supporting large number of users with the help of CDMA and achieving high data rates with OFDM. It aggregates the advantages of both CDMA and OFDM. This book aims at providing the suitable techniques to improve the performance of MC-CDMA system through various site diversity techniques.
