

# The `People Power` Job Superbook Book 13. Government Jobs (Federal, State, County, Municipal, World Government Job Websites, Canadian Government Jobs)

Tony Kelbrat

The government is huge as the primary decision-maker and economic power of any country, province, state, county, city, town or village but there are no books offering basic, generic government information except for a few big ones by Gale Group and other reference book publishers selling for hundreds of dollars each. For most government information, look through your local phonebook in four separate government sections: Municipal. County. State. Federal. Government books at the library are as follows: 350. Public Administration. 351. Central governments. 352. Local governments. 353. U.S. federal and state governments. 354. Other central governments. For the Library of Congress System, try G7212 at the library. Generally, if you're not sure of where to go, just use your common sense and contact the relevant department for directions and general information.
