Anastasia Willows

Alice Janson is a young adult when memories of a past life she had never known about before emerge into mind. She has an argument with her high school sweetheart and the argument triggers the memories. Alice wants to know why she had these memories emerge. Everyone she talks to about the memories tells her the memories are false memories. She is constantly told to stop worrying so much about the memories and is encouraged to just dismiss them. Alice finds herself in the middle of a psychological indifference. She does not know who to believe about the memories, nor does she know who to trust anymore. She spent more than a week in a psychiatric unit. After being released from the psychiatric unit she decided to comply with her dictator mother and go through the motions of life. But, on the inside Alice still struggled through the turmoil of the memories. She secretly investigates the memories and finds the truth of why the memories suddenly emerged.
